Bosstok Pinotage

Vineyards:

Sourced from our Agter-Paarl vineyards, we select younger bush-vine vineyards to ensure retention of the characteristic pure fruit flavours and softer tannins. The Malmesbury Shale soils and unirrigated vineyards combine to give wines with concentrated, juicy fruit flavours, minerality and elegance.

Bosstok: “Bush-Vine”

Bosstok refers to the untrellised bush-vine vineyards that make up more than half of the vineyards of our region. The bosstok Pinotage vineyards grow close to the ground, producing lower yields of concentrated, flavourful grapes.
